

requires Live Love Rescue permission.

Keep Live Love Rescue informed about your foster dog's personality, quirks, behavior, etc. Your input is invaluable for describing the dog on the website and to potential adopters.

Treat the dog as a member of your family.

Dogs are placed through adoption events, the internet, and advertising. After a home visit, all adopted dogs must have adoption papers filled out, signed, and the adoption fee paid before they can go home with an adopter. We welcome foster homes that work to find permanent homes for their foster dogs. Live Love Rescue requirements must be met by all adopters.
